OUR STAINLESS SOLAR SYSTEM USES LESS ENERGY, SAVES YOU MONEY AND IS ENVIRONMENTALLY FRIENDLY

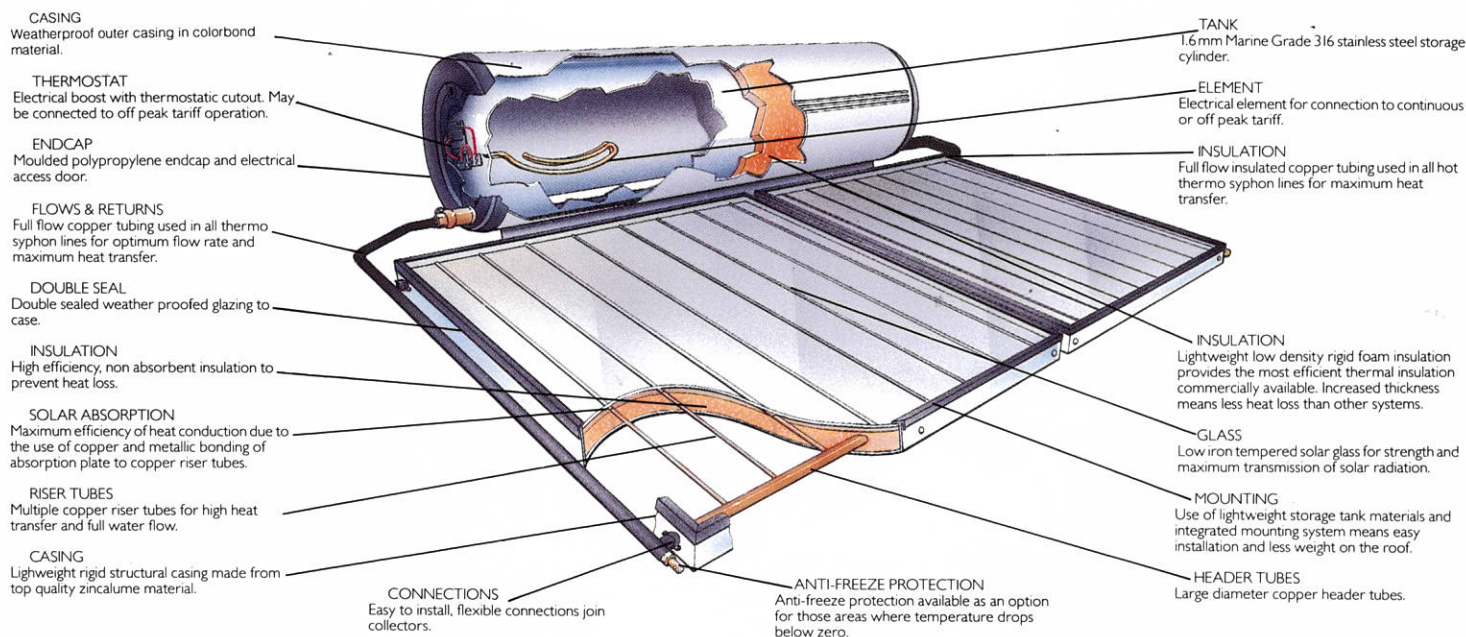

Over 50 years experience in bringing hot water to the world, has enabled the development of advanced technology solar hot water systems.

A Beasley Model 26S solar hot water system can provide you with piping hot water for your every day needs, and most importantly you can save as much as 95% (depending on your location) on the electricity cost, because Beasley heaters use less energy, resulting in a more environmentally friendly product.

QUALITY MATERIALS AND WORKMANSHIP FOR LONG, LONG LIFE.

Every component, every weld and joint is inspected and pressure tested meticulously, before shipment from the factory.

The heavy duty **stainless** steel storage tank on Model 26S carries a six year warranty, while our solar panels are guaranteed for seven years. Full details are given on warranty certificate.
